

Automation Instrumentation

The curtain opens on Automation Instrumentation Summit 2020

The third edition of Automation Instrumentation Summit, an international key event for Process Automation sponsored by AIS and ISA, was presented in Milan. There are many new features, starting from the location, the maxi duration of the schedule (Automation Instrumentation Week) and the birth of a new magazine, Automation Technology, to support the initiative.

In the unusual and evocative setting of WOW Spazio Fumetto in Milan, a creative area part of the former Motta confectionery factory, the 2020 edition of **Automation Instrumentation Summit** was presented to the public. Now in its **third edition**, the event sponsored by **AIS, ISA Italy, ISA Emea** will take place from **17 to 18 June 2020**. The aim of the event is to promote know-how and innovation in the strategic sectors of automation, instrumentation and Industry 4.0 thanks to an original synergy that includes cultural growth, certified training and business opportunities.

Building on the success of previous editions, the third edition moves in continuity in terms of format, scientific value of content, propensity for internationalization, focus on process automation, maximum attention to the needs of exhibitors and conference attendees. The event will be co-located with **ISA EMEA 2020 Conference & Exhibition**.

Confirmed **Editoriale Delfino** as media partner and its partnership with **DMG Events**, the organisation of the event has been entrusted to a company with a strong international vocation, **Delta International Events**. One of the most interesting news concerns the locations, selected among some of the most important historical buildings in the centre of Milan, which will be unveiled in the coming weeks. But the real surprise, in contrast to the current trend, is the overall duration of the event. The two-day event is in fact part of the **Automation Instrumentation Week**, a wide series of exhibitions, scientific, informative and educational events in the round, including a visit to some production plants. This is the calendar:

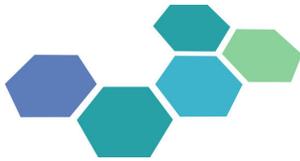

- 15-16 June 2020 - Training days
- 17-18 June 2020 - Automation Instrumentation Summit (Conference and Exhibition)
- 19-20 June 2020 - District Leaders Council
- 21 June 2020 - Tour on automation application sites

High-profile themes and players

During the Summit, leading companies and industry experts will present trends, innovations and best practices focused on cybersecurity, safety, IoT, Machine Learning, Industry 4.0, monitoring, analysis and measurement instrumentation, control technologies, industrial communication and wireless networks. Power, Renewables, Oil&Gas, Chemical-pharmaceutical, Food, Critical Infrastructures, Metrology and Process Industry in general will be the most affected application sectors.

Absolute novelty, in line with the organizational and relational models outlined by the current digital revolution, will be some events related to productivity, leadership, corporate welfare and organizational well-being.

In addition to the ASI - ISA network, the high scientific and technological profile of the event is ensured by a first-class **Scientific Committee** as well as players and partners and by the likes of **Saudi Aramco, Saipem, Politecnico di Milano, Università Complutense di Madrid**, to name but

Automation Instrumentation

a few. The scientific committee of international experts will issue the call for papers by the end of the year.

A new magazine

To support the cultural, scientific and organisational challenge of the **Automation Instrumentation Summit**, the official body of **AIS, ISA Italy Section, ISA EMEA District 12**, has been reshaped. Automation Technology, this is the name of the magazine previewed at the Summit, is a bilingual Italian-English version of the magazine, born with the aim of offering the reader a broad and updated overview of the world of automation, instrumentation and security, with an eye to the process industry and the impact of Industry 4.0 and Digital Transformation.
